

Outstanding Customer Service

J.C. Backings offers the industry's highest level of customer service.

From the first phone call, our clients get our full attention through each phase of the process:

- Initial research and understanding of the project's needs.
- Working with the client to ensure all options are presented.
- Friendly staff researches the right backing for your production.
- Email options for images that may not be on the website.
- Help clients decide which type of backing is best suited for the production specifications and budget.
- Specialize in handling shipments out of state and around the world.

More Than 5,000 Rental Backings

J.C. Backings features more than 5,000 rental backings in our catalog. While the majority of our rental backings can be found on our website, the remainder of our inventory can be accessed with a quick phone call.

The advanced search at www.jcbackings.com gets you where you need to go fast:

- Keyword search.
- Type of backing (Painted, Photo or Digital Print).
- Subject category.
- Size (max/min length and max/min width).
- **NEW!** Horizon line info with multiple download and print options.

www.jcbackings.com Is Better Than Ever!

Faster search.

Easier navigation.

Better experience.

That's what J.C. Backings website offers Production Designers, Art Directors and their teams.

Custom Photography

When you need to have the “perfect” shot that can only be achieved with custom photography, J.C. Backings has you covered.

Our full-service Custom Photography department offers you a complete turn-key experience including:

- Expert photography by Pierre Steele.
- Streamlined approval process via email, FTP download and/or in-person at our Smiley location.
- Color correction.
- Digital manipulation.

Size matters.

Using our 80 megapixel Phase One IQ180 digital back (the pinnacle of digital capture devices currently available), our source images are guaranteed to be the highest quality and resolution possible.

Customize to your exact needs.

Digital manipulation of existing or new original photography is also available. Whether you want to turn a gray sky blue, add a building to the scene that wasn't there or simply change the color of a house, our digital imaging experts can give you EXACTLY what you want.
